

Quick Start Guide for Feather Squadron

Equipment and prerequisites required:

- An approved professional account with Acoustic Pioneer
- An iPad version 4 or later
- The Feather Squadron App installed on the iPad
- Koss UR10 headphones
- An environment free of auditory and visual distraction

Set-up steps

- 1) Plug in the Koss UR10 headphones
- 2) Set the headphone volume to 50% (8/16 steps)
- 3) Open the Feather Squadron App
- 4) Sign in with your approved email address and password
(an internet connection is required for the first time signing in to an iPad but can be used offline for subsequent testing of hundreds of clients afterward)
- 5) Enter the client name or similar identifier (initials or student id or similar)
- 6) Enter the date of birth (this will be used to compare to same-aged peers)
- 7) Tap the 'Start Assessing' button
- 8) Place the headphones on the client ensuring they are on correctly (left on left ear)
- 9) Ask the client to tap the screen when they are ready to begin and the program will tell them how to play
- 10) Make sure the game is not closed with the iPad home button until it gets back to the sign in screen.
